Chairman's Welcome

9:00 AM 10:00 AM

Sponsored By

Opening Keynote: Cindy Solomon – Bayview Ballroom

**The Customer of the Future: Inspire Diehard Loyalty Among Customers and Employees**

*Cracking the code on creating profitable, long-term customer loyalty has never been more difficult. Whether you are an entrepreneur, a corporate leader or a multi-national organization, the ability to attract and retain your most profitable customer relationships has become the business holy grail that requires every leader and every employee 'all in' in order to create true, measurable success.*

Networking Break

10:15 AM 11:15 AM

Breakout 1  
Salon B

Sponsored By

Breakout Sessions

**Sharing Lessons Learned and Best Practices of Handling, Manufacturing and Transporting Chemicals**

**Ann Green, President, Ann Green Communications | Marysue Knowles, Senior Consultant Ann Green Communications**

*Each table will work as a group to answer the series of questions that are on their table. There could be two sets of questions with 20 minutes for each set. They will be asked to maximize the time to really discuss what is being asked and then, determine answers, what could be seen as the "best" practice for that particular question. At the end of the 40 minutes of table discussion, the moderator from AGC will ask them to share.*

Breakout 2  
Bayview Ballroom

Sponsored By

**Site Remediation Reform Act 2.0**

**Maria Kaouris, Remediation Manager, Honeywell | Irene Kropp, Sr. Environmental Consultant, Langan and LSRPA Steering Committee | Mark Pedersen, Assistant Commissioner for the Site Remediation and Waste Management Program, NJDEP | Steven T. Senior, Esq., Partner, Riker Danzig Scherer Hyland & Perretti LLP**

*Senator Smith is planning to start hearings in 2017 on potential amendments to the Site Remediation Reform Act. Numerous stakeholder groups, including CCNJ, are working on a list of recommendations. Topics that will be highlighted at the legislative sessions will include financial assurance (such as the use of self-guarantees and surety bonds), historic fill and other non-discharge conditions, innocent purchaser protection, clarifying the responsibilities of an LSRP, and others*

General Session: New Jersey Energy Policy Panel – Bayview Ballroom

**Stefanie Brand, Esq., Director, NJ Division of the Rate Counsel | Christopher J. Broome, PE, CEM, Associate Director, Global Energy CoE, Merck | Steven S. Goldenberg, Partner, Fox Rothschild**

12:15 PM 1:15 PM

Lunch – Bayview Ballroom

1:15 PM 2:00 PM

Sponsored By

Afternoon Keynote: Mehdi Miremadi – Bayview Ballroom

**A Future that Works: Automation, Employment, and Productivity**

*The McKinsey Global Institute has been conducting an ongoing research program on automation technologies and their potential effects. A new MGI report, "A Future that Works: Automation, Employment, and Productivity," highlights several key findings. Mehdi Miremadi, a partner at McKinsey, and a leader in McKinsey's chemical practice, is the co-author of this commonly cited report, and will discuss these significant conclusions in this special keynote presentation.*

2:10 PM 3:10 PM

General Session: President Trump: Environmental Changes We Can Expect – Bayview Ballroom

**Gail Conenello, Partner, K&L Gates | David Klucsik, Director N.A. Communications, Solvay | Brian Montag, Partner, K&L Gates | Cliff Rothenstein, Government Affairs Advisor, K&L Gates**

*The overhaul and changes to environmental law under the Trump administration will be dramatic. We will see changes - many positive for the industry and some negative - which have a direct impact on the day to day management and operations of the chemical industry.*

## Monday, May 1, 2017

3:20 PM 4:20 PM Breakout Sessions

**Breakout 3**  
**Bayview Ballroom**  
**Environmental Standards Development – Navigating SSRA and SDWA.**

**Erin Palko, PG, LSRP, Sr. Managing Scientist, Integral | David Restaino, Partner, Fox Rothschild | Kathleen F. Stetser, PG, LSRP, Vice President, GEI Consultants**

*Once an environmental standard is developed, the stage is set for site investigation and management. This panel session will review the legal and regulatory framework for developing groundwater and drinking water standards, and identify critical points at which stakeholder engagement can be productive. The panel will present information and case studies involving both SSRA, including Class II Groundwater Quality Criteria and the status of GWQS development which is ongoing, and the Safe Drinking Water Act/Private Well Testing Act.*

**Breakout 4**  
**Salon B**  
**Defect Elimination**

Sponsored By

**George Mahoney, CRL, Director of Global Energy Center of Excellence, Merck**

*Despite the best of intentions, almost every traditional maintenance program either fails or isn't sustained. It's not that the programs didn't fully understand the failure modes of equipment or the proper means to maintain or operate them. It's that they missed the most important element of all: the people. People are the primary source of all equipment defects (a.k.a bugs). On the flip side, people are also the primary source of eliminating all equipment defects. And when they are empowered properly, they can stop them from ever entering in the first place!*

4:30 PM 5:15 PM **Legislative Session – Bayview Ballroom**

Sponsored By

**Senator Linda Greenstein (D-14), Assistant Majority Leader; Chair, Law & Public Safety; Vice-Chair, Environment & Energy | Assemblyman Tim Eustace (D-38), Deputy Conference Leader; Chair, Environment & Solid Waste; Vice-Chair, Health & Senior Services.**

*Invited legislators will discuss timely policy issues.*

5:30 PM 6:00 PM **CCNJ Board of Directors Meeting (By Invitation Only) – Oval Room**

6:00 PM 7:00 PM **Cocktail Reception – Bayview Ballroom**

Sponsored By

7:00 PM 8:30 PM **Dinner – Bayview Ballroom**

Sponsored By

8:30 PM 10:30 PM **After Dinner Cocktail Reception – Lobby Bar**

Sponsored By

**Continue the networking at this hosted reception with open bar.**

8:50 AM 9:50 AM **General Session: Environmental Crisis Management – Bayview Ballroom**

Sponsored By

**Don Bluedorn, Shareholder, Babst, Calland, Clements & Zomnir, PC**

*Don Bluedorn was Special Environmental Counsel for Freedom Industries, Inc. regarding the January 2014 MCHM release to the Elk River in Charleston, WV. He will share some of his experiences with the Freedom matter and other environmental crises, and he will present a practical road map for navigating environmental crisis management issues.*

10:00 AM 10:45 AM **General Session: Election Outlook 2017**

**Bayview Ballroom**

**Ben Dworkin, Ph.D., Adjunct Assistant Professor and Director of The Rebovich Institute for New Jersey Politics, Rider University | Conor Fennessy, Managing Director, Mercury. | Adam Steinberger, Director, Kivvit**

*Speakers will discuss the political outlook for New Jersey 2017 Gubernatorial and Legislative Elections.*

10:45 AM 11:45 AM **General Session: Property Tax Assessments for Contaminated Properties & Industrial Facilities**

**Bayview Ballroom**

**Matt Conley, Partner, Archer | Alex Genato, Partner, Archer | Jeff Gordon, Partner, Archer**

*Techniques for reducing property tax assessments for properties with environmental contamination as well as active industrial facilities*

11:45 AM 12:30 PM **Closing Keynote: Essential<sub>2</sub> – ACC Campaign to Promote Advocacy Goals & Benefits of Chemistry – Bayview Ballroom**

Sponsored By

**Anne Womack Kolton, Vice President of Communications, American Chemistry Council**
