

Coronavirus (COVID-19) Information

Update 4: March 17, 2020

Good afternoon,

Yesterday, Governor Murphy announced [uniform standards for crowds and social gatherings](#), which he executed [via Executive Order 104](#) and went into effect at 8 p.m. on Monday, March 16, 2020.

[E.O. 104](#) may have caused some confusion, but to be clear while non-essential and non-emergency travel in New Jersey is **strongly discouraged** between the hours of 8PM and 5AM, **it is not a travel ban**. Traveling to and from work is considered essential, since everyone is not able to work from home.

As well, [E.O. 104](#) states that the occupancy limit does not apply to work offices, industry and/or manufacturing:

"All gatherings of persons in the State of New Jersey shall be limited to 50 persons or fewer, excluding normal operations at airports, bus and train stations, medical facilities, office environments, factories, assemblages for the purpose of industrial or manufacturing work, construction sites, mass transit, or the purchase of groceries or consumer goods."

There is also confusion about county and local actions, but [E.O. 104](#) is clear that no local order should conflict with or supersede [E.O. 104](#):

"No municipality, county, or any other agency or political subdivision of this State shall enact or enforce any order, rule, regulation, ordinance, or resolution which will or might in any way conflict with any of the provisions of this Executive Order, or which will in any way interfere with or impede its achievement."

Today, Governor Murphy mentioned that his office is looking at all local and county orders and has asked local governments to coordinate with the state before issuing any orders, where necessary the state will override local and county actions to ensure consistency throughout state.

As we mentioned before, we have been in communication with the State OEM (Office of Emergency Management) and they confirm that currently there are no restrictions on manufacturing facilities and critical infrastructure operations.

CCNJ can confirm that the State OEM is processing new companies to enter the Private Sector Essential Employee Registration Project. CCNJ will facilitate getting company contact info to OEM. If your facility is not already registered and is interested in participating in this free program, please send Elvin Montero (emontero@chemistrycouncilnj.org) the contact information of the person at your company

who will be in charge of the program for your site/facility. Elvin will need their name, title, email and both office and cell number contact, as well, please indicate if your site/facility is making a product essential to the COVID-19 response. Priority will be given to those companies manufacturing those essential products. As we get requests from member companies, we will send them over to OEM. **We will be sending the first list of company contacts later this evening into OEM.**

While your company awaits to be contacted by OEM, we suggest that the person at the facility/company who will be managing the program start identifying the employees your site will need to continue operations and make sure you have the following information for each:

- Full Name
- Date of Birth (Month/Day/Year)
- Driver's License Number (where applicable)
- Company ID number [This is provided once registered]
- Contact Phone Number
- E-mail address

As well, it is important to remind your employees to have their work ID accessible while driving to and from work, so they can present it with their license if necessary.

Below you will find new information highlighted in blue added since the last update.

[Governor Murphy Announces Aggressive Social Distancing Measures to Mitigate Further Spread of COVID-19 in New Jersey](#)

Governor Phil Murphy today signed Executive [Order No. 104](#), implementing aggressive social distancing measures to mitigate further spread of COVID-19 in New Jersey. Among the directives, Governor Murphy's Executive Order indefinitely closes all public and private preschool, elementary and secondary schools, and institutions of higher education, as well as closes all casinos, racetracks, gyms, movie theaters, and performing arts centers. The order also mandates that all non-essential retail, recreational, and entertainment businesses must cease daily operations from 8:00 p.m. to 5:00 a.m. All restaurant

establishments, with or without a liquor license, are limited to offering only delivery and/or take out-services only, both during daytime hours and after 8 pm.

CDC (COVID-19) Situation Summary Updated Regularly

[White House: 15 Days To Slow The Spread](#)

The President's Coronavirus Guidelines for America -- 15 Days to Slow the Spread of Coronavirus (COVID-19)

[Click here for White House Document](#)

[Coronavirus Disease 2019 \(COVID-19\) Situation Summary](#)

CDC is responding to an outbreak of respiratory disease caused by a novel (new) coronavirus that was first detected in China and which has now been detected in more than 100 locations internationally, including in the United States. The virus has been named "SARS-CoV-2" and the disease it causes has been named "coronavirus disease 2019" (abbreviated "COVID-19").

[Click here for CDC Situation Summary](#)

[Get Your Mass Gatherings or Large Community Events Ready Interim Guidance for Coronavirus Disease 2019 \(COVID-19\)](#)

CDC, in accordance with its guidance for [large events and mass gatherings](#), recommends that for the next 8 weeks, organizers (whether groups or individuals) cancel or postpone in-person events that consist of 50 people or more throughout the United States.

[Click here for CDC Guidance](#)

CCNJ 36th Annual Spring Conference

Based on the CDC guidance and uniform standards announced by Governor Murphy, we can no longer hold our conference on April 27-28, 2020. We are still working out details with The Ocean Hotel and Seaview Golf Club. At this time, we cannot confirm if we are postponing or canceling the 2020 conference. We will send out information once we reach an understanding with the hotel and golf club. At that time, we will communicate options to those who have already committed to sponsoring and exhibiting at the 36th Annual Conference. We hope to have more information later this week.

CCNJ COVID-19 IMPACT POLL

To better serve our members during this time we have put together a [COVID-19 Impact Poll](#). The information being gathered will help us better inform the government, particularly the NJ Office of Emergency Management, about the essential products you make and allow us to better assess the potential impact of COVID-19 on your operations and anticipate any needs. Please, take 5-8 minutes to [complete the survey](#). **Hopefully you can complete the survey by Wednesday, March 18.** We will share the results with the Board of Directors at the next Board meeting, and the full membership by Friday.

HIPAA Privacy, Labor Laws & CDC Reporting Form

[Office for Civil Rights, U.S. Department of Health and Human Services BULLETIN: HIPAA Privacy and Novel Coronavirus](#)

In light of the Novel Coronavirus (2019-nCoV) outbreak, the Office for Civil Rights (OCR) at the U.S. Department of Health and Human Services (HHS) is providing this bulletin to ensure that HIPAA covered entities and their business associates are aware of the ways that patient information may be shared under the HIPAA Privacy Rule in an outbreak of

infectious disease or other emergency situation, and to serve as a reminder that the protections of the Privacy Rule are not set aside during an emergency.

New Jersey & Other Government Resources

- [COVID-19: Information for Schools and Businesses](#)
To prepare for possible community transmission of COVID-19, the most important thing for schools to do now is plan and prepare. As the global outbreak evolves, schools should prepare for the possibility of community-level outbreaks. Schools want to be ready if COVID-19 does appear in their communities.
https://www.nj.gov/health/cd/topics/covid2019_schoolbusiness.shtml
- [New Jersey Department of Health COVID-19: A Guide for Businesses March 2, 2020](#)
Many employers and businesses in New Jersey are concerned about the current outbreak of the 2019 Novel Coronavirus (COVID-19) and potential impacts to their business communities and wish to take appropriate steps to mitigate any risks. The Centers for Disease Control and Prevention (CDC) is working hard to learn as much as possible about this COVID-19 so that we can better understand how it spreads and characterize its associated illness. The New Jersey Department of Health is also working hard to develop guidance and education materials, in the face of evolving information.
https://www.nj.gov/health/cd/documents/topics/NCOV/Guide%20for%20businesses_3-4-2020.pdf
- [Directory of Local Health Departments](#)
Suspected cases should be reported IMMEDIATELY to the local health department (LHD) where the patient resides. If the patient's residence is unknown, report to your own local health department. Local health departments are available 24/7/365.
<https://www.nj.gov/health/lh/documents/LocalHealthDirectory.pdf>
- [Interim Exposure Categories for Asymptomatic Individuals with Possible Exposure to COVID-2019](#)
This interim guidance is effective as of February 3, 2020 and does not apply retrospectively to people who have been in China during the previous 14 days and are already in the United States, or those being managed as part of a contact investigation.
