

# Coronavirus (COVID-19) Information

## Update 20: April 9, 2020

Good afternoon,

Late last evening, you should have received Update 19, which shared information on [Executive Order 122](#), which updates [Executive Order 107](#), and directs all non-essential construction across the state to cease, indefinitely, effective 8 p.m. Friday, April 10. As well, the E.O. provided guidelines for warehouses and manufacturing facilities.

The EO now places the onus on the employer to provide the PPE that best works with your situation – face covering and gloves, provide guidance on usage (how many times do you change them, etc.), and proper disinfecting process for the work area.

While for the most part CCNJ felt our members have been practicing most, if not all, of the procedures listed in the [Executive Order 122](#), we are aware of concerns with the gloves requirements, and in some cases the mask requirement. The E.O. does not prescribe what type of face covering or glove should be used at your facility, but we understand that your manufacturing process and access may present some challenges to comply with the glove requirement. **CCNJ has reached out to the Office of the Governor to raise your concerns, and as soon as we have some new guidance from them, we will share.**

We have provided this before, but please, refer to the [CDC guidance on cloth face coverings](#). CDC provides different options. [Click here](#) to review CDC guidance.

EO 122 also refers to the implementation of policies regarding employees showing signs of or testing positive for COVID-19. Late yesterday, the CDC released updated [Interim Guidance for Implementing Safety Practices for Critical Infrastructure Workers Who May Have Had Exposure to a Person with Suspected or Confirmed COVID-19](#). [Click here to review the guidance.](#)

### **Today, Governor Murphy signed Executive Order 123 (not yet published):**

Executive Order 123 extends the grace period for residents unable to pay their insurance premiums because of a loss of income or other negative impact as a result of the COVID-19 emergency. The EO 123 requires a minimum 60-day grace period for health and dental insurance policies, and 90-days grace for home and auto insurance, renter's insurance, life insurance, and for insurance premium-financing arrangements among others. The order makes clear that all claims covered by the insurance policy must be paid out to those who are within these grace periods. In addition, insurers cannot demand repayment of unpaid premiums in a lump sum at the end of the grace period, but rather they must spread these back-payments out over the remainder of the insurance term. Finally, insurers are required to provide each policyholder with an easily readable written description of the terms of the extended grace period.

## **EPA ISSUING CASE-BY-CASE DETERMINATIONS FOR SUPERFUND SITES TO CONTINUE REMEDIATION ACTIVITIES**

Following EPA's March 19, 2020 issuance of their Office of Land and Emergency Management Considerations and Posture for COVID-19 Pandemic guidance document, facilities are receiving correspondence from the federal agency.

This guidance document states that "Superfund and Emergency Management Division Directors...should determine needed work on a case-by-case basis for removal, remedial, leaking underground storage tank (LUST), RCRA Corrective Action cleanups and Federal Facility sites by considering both the regional and/or local COVID-19 situation and threat(s) posed by the release/site...".

Once EPA has determined that, based on their evaluation of the factors above, a Superfund site should continue remediation activities, they will send a notification letter stating that work must continue and company personnel/contractors need to travel to and from the site in order to execute this work as it is necessary to protect the environment and public health.

[Click here for EPA OLEM's Considerations and Posture for COVID-19 Pandemic guidance document.](#)

### **Disinfecting Cleaning and Remediation Services**

CCNJ has reached out to our Associate Members to try and identify which firms provide COVID-19 cleaning and disinfection services. We wanted to share any responses as a service to our members that may need access to these services to comply with EO 122. To date, GES responded and they offer Preventative **Cleaning - Non-Suspected COVID-19 Exposure**; **Cleaning and Disinfection - After Suspected COVID-19 Facility Exposure**; and **Cleaning and Disinfection - After Confirmed COVID-19 Facility Exposure**. If you require access to these services, please reach out directly to Mark Motylewski, Vice President, Client Services, 201.213.2355 or [mmotylewski@GESonline.com](mailto:mmotylewski@GESonline.com).

### **Small Business Emergency Assistance Loan applications will open Monday, April 13, 2020, at 9:00 a.m.**

You may now [access a copy of the loan application](#) to help you prepare your submission. Completed applications will be considered on a first come, first serve rolling basis. The loan application will go live on April 13 and is expected to be oversubscribed.

The Small Business Emergency Assistance Loan program is designed to provide a direct loan of up to \$100,000 to NJ-based small businesses and non-profits organizations that have been in existence for at least one-year and has less than \$5 million in annual revenue.

To see whether you might qualify for this program, use the [NJ COVID-19 Business Support Eligibility Wizard](#).

### **"STAY AT HOME" EXECUTIVE ORDER 107 STILL IN PLACE**

The "Stay at Home" [Executive Order No. 107](#) remains in full effect with additional requirements as stated in EO 122.

Employees reporting to work are permitted to travel to and from their place of business. **Businesses are encouraged to give each employee a letter indicating that the employee works in an industry permitted to continue operations, and their shift.** Essential employees should have the company letter, and company ID accessible while driving to and from work, so they can present it with their license if necessary. We suggest the [DHS Guidance to help with the letter.](#)

Below you will find new information highlighted in blue added since the last update. As well, take some time and explore the many links and information provided below and in previous updates. The state's main COVID-19 information portal is located at , <https://covid19.nj.gov/>.

## CDC (COVID-19) Situation Summary Updated Regularly

[New: Interim Guidance for Implementing Safety Practices for Critical Infrastructure Workers Who May Have Had Exposure to a Person with Suspected or Confirmed COVID-19](#)

To ensure continuity of operations of essential functions, CDC advises that critical infrastructure workers may be permitted to continue work following potential exposure to

COVID-19, provided they remain asymptomatic and additional precautions are implemented to protect them and the community.

[Click here for CDC Guidance](#)

#### [Discontinuation of Isolation for Persons with COVID-19 Not in Healthcare Settings \(Interim Guidance\)](#)

Update CDC guidance providing additional information for asymptomatic persons with laboratory-confirmed COVID-19 on limiting contact and wearing a face covering after isolation to prevent spread.

[Click here for update CDC Guidance](#)

#### [Use of Cloth Face Coverings to Help Slow the Spread of COVID-19](#)

CDC recommends wearing cloth face coverings in public settings where other social distancing measures are difficult to maintain (e.g., grocery stores and pharmacies), especially in areas of significant community-based transmission.

[Click here for CDC Cloth Face Coverings Guidance](#)

#### [Coronavirus Disease 2019 \(COVID-19\) Situation Summary](#)

CDC is responding to an outbreak of respiratory disease caused by a novel (new) coronavirus that was first detected in China and which has now been detected in more than 100 locations internationally, including in the United States. The virus has been named “SARS-CoV-2” and the disease it causes has been named “coronavirus disease 2019” (abbreviated “COVID-19”).

### **Government Resources**

- [Enforcement Guidance for Use of Respiratory Protection Equipment Certified under Standards of Other Countries or Jurisdictions During the Coronavirus Disease 2019 \(COVID-19\) Pandemic](#)

This memorandum provides interim guidance to Compliance Safety and Health Officers (CSHOs) for enforcing the Respiratory Protection standard, 29 CFR § 1910.134, and certain other health standards, with regard to supply shortages of disposable N95 filtering facepiece respirators (FFRs). Specifically, it outlines enforcement discretion to permit the use of FFRs and air-purifying elastomeric respirators that are either:

<https://www.osha.gov/memos/2020-04-03/enforcement-guidance-use-respiratory-protection-equipment-certified-under>

- [EPA Announces Enforcement Discretion Policy for COVID-19 Pandemic](#)

The U.S. Environmental Protection Agency (EPA) is mindful of the health and safety of the public, as well as our staff, and those of Federal Agencies, State and Local Governments, Tribes, Regulated Entities, Contractors, and Non-governmental Organizations during the COVID-19 pandemic. The agency is taking these important considerations into account as we all continue our work to protect human health and the environment. Accordingly, EPA is announcing a temporary policy regarding EPA enforcement of environmental legal obligations during the COVID-19 pandemic.

- [New Jersey Department of Health COVID-19: A Guide for Businesses March 2, 2020](#)  
Many employers and businesses in New Jersey are concerned about the current outbreak of the 2019 Novel Coronavirus (COVID-19) and potential impacts to their business communities and wish to take appropriate steps to mitigate any risks. The Centers for Disease Control and Prevention (CDC) is working hard to learn as much as possible about this COVID-19 so that we can better understand how it spreads and characterize its associated illness. The New Jersey Department of Health is also working hard to develop guidance and education materials, in the face of evolving information. [https://www.nj.gov/health/cd/documents/topics/NCOV/Guide%20for%20businesses\\_3-4-2020.pdf](https://www.nj.gov/health/cd/documents/topics/NCOV/Guide%20for%20businesses_3-4-2020.pdf)
- [Directory of Local Health Departments](#)  
Suspected cases should be reported IMMEDIATELY to the local health department (LHD) where the patient resides. If the patient's residence is unknown, report to your own local health department. Local health departments are available 24/7/365. <https://www.nj.gov/health/lh/documents/LocalHealthDirectory.pdf>
- [Interim Exposure Categories for Asymptomatic Individuals with Possible Exposure to COVID-2019](#)  
This interim guidance is effective as of February 3, 2020 and does not apply retrospectively to people who have been in China during the previous 14 days and are already in the United States, or those being managed as part of a contact investigation. [Click here for guidance document](#)

- [COVID-19 Member Response](#)

American Chemistry Council's (ACC) member companies have played critical role in the global battle against COVID-19 by increasing the production and supply of necessary products and materials, such as hand sanitizers, disinfectants, face masks, and other personal protective equipment (PPE). As the demand for health and safety products increase, our members have altered manufacturing facilities, and are working around the clock to provide the world with the essential materials needed to face the coronavirus pandemic.
